

In addition to the wealthier visitors to some extent, the success of the performance at the Theatre Royal on Wednesday night, when Le Tosca was put on the board by Miss Potter and Mr. Bellor and their company. The piece is one in which both Miss Potter and Mr. Bellor appear to great advantage and they certainly do full justice to the leading parts, while they get excellent support from the other members of the company. The piece was greatly enjoyed and deservedly received a great amount of applause. This evening David Garrick will be given, and the two distinguished artists, whose visit has given a great deal of pleasure to playgoers in the colony, will make their farewell appearance at the entertainment to be given under the auspices of the Smoking Concert Club, in the Theatre Royal to-morrow night, when there will be, no doubt, a crowded house.

A POOR TELEGRAM DATED April 18, in the Madras Mail states:—The first shooting competition at Mysore this season took place on Tuesday at the bow range. The competition was open to both ladies and gentlemen, and was never shot at fifty and never at a hundred yards. Mr. Taitt won the first prize with the remarkable score of 66 out of a possible 70, Captain Roos taking second prize with the same score. They each made 64 at the shorter range and 33 at the longer. Colonel H. H. Taitt was third with 61. The shooting at 50 yards was exceptionally good, no less than six competitors, among them Lady Harris, scoring 34 points.

MR. QUONG TART IN HONGKONG. PROPOSED ESTABLISHMENT OF WOOL.

Mr. Quong Tart, whose arrival in Hongkong from Australia, was notified the other day, was waited upon by a representative of the China Mail with a view to ascertain what were his intentions, as indicated by the Sydney press, for the development of the wool trade between Australia and China. Mr. Tart is a naturalized British subject, who has been resident in Australia for many years, takes an active part in all public and benevolent work, and has been most successful in business. He is highly respected by men in all positions of life, and carries the highest credentials from Sir H. W. Duff, Governor of New South Wales; Sir George Dibble, Premier, and Sir Henry Parkes, speaker of the House of Representatives of New South Wales. Mr. Tart, when leaving Sydney, by the steamer *Memphis*, was made the recipient of presentations from his employer, the railway servants, the Highland Society of New South Wales, and the City Band. His principal reason for coming to China at the present time is to visit his mother.

I see from the Australian papers, said our representative, 'that you are pledged, to a certain extent, to endeavor to push the introduction of Australian wool into China.'

'Yes, replied Mr. Tart, 'I have engaged to push the wool trade in China, chiefly New South Wales wool. The intention is to establish factories in the South of China for the manufacture of materials for clothing. It is believed that there would be a large demand for woolen fabrics in China; indeed, we believe that once the Chinese are fully acquainted with the valuable properties of woolen stuffs, especially for underclothing, the trade would be one of the finest in the world. For preference, we should like to establish large factories in Hongkong, and it is my intention to pave the way for the carrying out of such an enterprise. Some of the leading commercial men in New South Wales are interested in the matter. We are of the opinion that many difficulties would be avoided by having the factories in Hongkong instead of in the interior of China. Hongkong would be the most convenient port for the reception of raw material from Australia and for the distribution of the manufactured goods along the coast. There are no import or export duties to be paid, labour could be got here as cheaply as in the interior of China, and though we might have some difficulty in getting a cheap and supply, I think we could turn out manufactured materials at prices which would not only induce the Chinese, Japanese and Indians to buy, but at prices which would enable us to compete successfully against manufacturers in any other portion of the world. It is not our intention to bring over any manufactured articles. If we are shown any encouragement in Hongkong, the New South Wales interests, that are behind me will push the matter. Down there, they want new outlets for enterprise.'

'Are the general factories to be established by Chinese?' 'I am not at liberty to say much on that point at present,' said Mr. Tart. 'In the first instance they would be run by private enterprise. The Taitt talked of what matters which have engaged his attention of late years. He intends to see the course of Canon to be before him his views on the general subject of the Chinese in Australia and kindred subjects. Mr. Taitt is not in favor of the unrestricted immigration of Chinese into Australia. He advocates a fixed rate of immigration, in accordance with the number of Chinese residents, a uniform policy (whether as necessary, and when necessary, to be adopted for the protection of the Chinese, and the prevention of the Chinese from becoming a dominant element in the community, by advocating the development of Chinese athletic sports, although showing a small

Council-General in Australia, with counsels or vice-counsuls at the various ports. If it had not been for Chinese industry and Chinese labour and enterprise, many parts of Australia would have remained worthless to the present time, and, after all, the Chinese compete with the European in Australia in comparatively few trades. Mr. Taitt is one of the most uncompromising opponents of the opium traffic, and when he touches this topic becomes quite eloquent in his denunciation.'

What will interest the community of Hongkong most is the proposal to establish wool factories in the Colony. It has been remarked over and over again, that the Colony is greatly in need of local industries. In his speech opening the last session of the Legislative Council here, His Excellency Sir William Robinson said:—

'The Chinese are slow to begin anything, but if the present state of affairs continues they will be compelled to produce and export many articles which they have hitherto imported from Europe and other countries. The Japanese are quite alive to the situation, so far as it concerns them, and are not only erecting new cotton mills, but are about to take the import duty off raw cotton. It is possible, therefore, that we may soon see Japan, for a time, supplying China with goods which are formerly obtained from Europe or India. It seems anomalous that whilst England should be striving to extend her commercial relations in China on the one hand, she should on the other be countenancing measures which apparently have the effect of creating competition against herself and her own productions in the Far East. Under these circumstances, the attention of the community should be directed to the desirability of establishing cotton mills in Hongkong. The Government is in possession of several eligible sites, and if only capitalist, either European or Chinese, will come forward and invest their capital in such enterprises, I will endeavor that so far as the acquisition of land is concerned they shall be treated with exceptional liberality.'

The success which has attended other efforts of this nature in Hongkong ought, under these favourable circumstances, to lead to the introduction of additional local industries, such as cotton spinning and weaving; and no more fitting time than the present seems likely to occur. This matter is worthy, therefore, of the earnest consideration not only of this community but of capital in the neighbouring provinces of China. In His Excellency the promoters of such local industries may, therefore, rely on finding a ready supporter. The exchange difficulties that have existed of late years are all in favour of the promotion of production in silver-using countries, and were it not for some minor local difficulties and the want of a nucleus before we can think of embarking on a venture of this sort, I am confident, I should like to make the invaluable services rendered by our energetic Secretary, and a demon reformer, and the hardy worker the Club, has ever had; and also those of Mr. Adamson, the Treasurer, who, I am sure, regards the Club as a more satisfactory balance, than who has worked hard to do so. I know I must not point out to you that

Mr. Taitt—The success which has attended other efforts of this nature in Hongkong ought, under these favourable circumstances, to lead to the introduction of additional local industries, such as cotton spinning and weaving; and no more fitting time than the present seems likely to occur. This matter is worthy, therefore, of the earnest consideration not only of this community but of capital in the neighbouring provinces of China. Mails.

U. S. Mail Line.
PACIFIC MAIL STEAMSHIP COMPANY.

VIA INLAND SEA OF JAPAN AND HONOLULU.

PROPOSED SAILINGS FROM HONGKONG.
Peru (via Nagasaki), SATURDAY, June 2, 1 p.m.
Kobo (Inland Sea and Yokohama).....
City of Rio de Janeiro (via Nagasaki), WEDNESDAY, June 20, 1 p.m.
Kobo (Inland Sea and Yokohama).....
City of Peking (via Nagasaki, Kobo), WEDNESDAY, July 11, 1 p.m.
Inland Sea and Yokohama.....
THE U. S. Mail Steamship *PERU* will be despatched for SAN FRANCISCO, via NAGASAKI, KOBE, INLAND SEA and YOKOHAMA, on SATURDAY, the 2d June, at 1 p.m., taking Passengers and Freight for Japan, the United States, and Europe.

Steamers of this line pass through the INLAND SEA OF JAPAN, and call at HONOLULU, and passengers are allowed to break their journey at any point en route. Through Passage Tickets granted to England, France, and Germany by all trans-Atlantic lines of Steamers, and to the principal cities of the United States or Canada. Rates may be obtained on application.

Passengers holding ORDERS TO EUROPE have the choice of the Overland Rail routes from San Francisco, including the SOUTHERN PACIFIC, CENTRAL PACIFIC, UNION PACIFIC, DENVER and RIO GRANDE, and NORTHERN PACIFIC RAILWAYS, also the CANADIAN PACIFIC RAILWAY on payment of \$10.00 Gold, in addition to the regular tariff rates.

Passengers holding orders FOR OVERLAND OUTINGS in the United States have, between San Francisco and Chicago, the option of the SOUTHERN PACIFIC, CENTRAL PACIFIC, UNION PACIFIC, DENVER and RIO GRANDE and other direct connecting Railways, and from Chicago to destination, the choice of direct lines.

Particulars of the various routes can be had on application.

Special rates (first class only) are granted to Missionaries, members of the Naval, Military, Diplomatic, and Civil Services, to European officials in service of China and Japan, and to Government officials and their families.

Through Bills of Lading issued for transportation to Yokohama and other Japan Ports, to San Francisco, to Atlantic and Inland Cities of the United States, via Overland Railway, to Havana, Trinidad, and Demerara, and to ports in Mexico, Central and South America, by the Company's and connecting Steamers.

Bills will be received on board until 4 p.m. the day previous to sailing. Parcel Packages will be received at the office until 5 p.m., same day; all Parcel Packages should be marked to address in full; value of same is required to be paid in full.

Concierge services to accompany Cargo destined for points beyond San Francisco in the United States, should be sent to the Company's Offices in Sealed Envelope, addressed to the Collector of Customs at San Francisco.

For further information, Maps, Guide Books, Rates of Passage, etc., apply to D. E. BROWN, General Agent, PADEREE STREET.

* Founder's Share.

SAINTAL-MIDY.

The pure essence of Santal obtained by Midy's process from the best Myrra wood.

SAINTAL-MIDY entirely different from the common Santal oil of the Indian Borneo. It is superior to Copaline, Cuban, or Juniper and free from all bad smell or other inconveniences.

SAINTAL-MIDY cures all diseases of the urinary organs in either sex in 48 hours.

SAINTAL-MIDY is contained in small round bottles, each of which bears the name "SAINTAL-MIDY" in block letters, without any ADY which would be genuine.

SAINTAL-MIDY is sold by all druggists and chemists dealers throughout the world.

SAINTAL-MIDY is sold by all druggists and chemists dealers throughout the world.
